Since the mid-nineties multi-disciplinary collective Fällt (www.fallt.com) has published works by an internationally acclaimed roster of artists including Stephan Mathieu, Alorenz, Mikael Stavöstrand and Scanner. Mathieu and Stavöstrand have released works on a wide range of labels including: Ritornell, Fällt, Force Inc. and Mitek; Alorenz, a designer, has been featured in Eye and Creative Review.

Digital artist, broadcaster and pirate of the airwaves, Scanner has been presenting works since the early 1990s. 'Scannerfunk' is his latest incarnation, supplementing his electronic, and usually abstract, music with an up to date dance drive, giving it an energetic and hypnotising twist.
